iTOOLCO

SDS Max
Connect to drill
for secure driving

**THE MOST
ERGONOMIC & SAFE
WAY TO DRIVE RODS**

**NEVER DRIVE
EARTH RODS
FROM A
LADDER AGAIN**

iToolco Earth Rod Driver

Part No: GRD01

Safely drive 12.7mm, 14mm, 16mm and 19mm Earth rods into the ground in under a minute with iTOOLCO's Ground Rod Dawg™. Once the rod is driven down far enough the tool can be used to hammer from top to finish the driving.

Features

- Drive earthing rods faster and safer
- Hardened tool steel construction for long life
- Multiple size rods can be driven
- SDS Max driver bit for positive connection and secure driving of rods

12.7mm to 16mm

16mm + 19mm

12.7mm

Bent Hardened Tool Steel

Creates an easy setup for driving ground rod

Ground Sinker

For driving the top of the ground rod below grade
